AIRPORT SECURITY POLICY

Airport Security is a cornerstone of YQB's operations. To this end, Aéroport de Québec inc. (AQi) manages, coordinates, integrates and implements its Airport Security Program (ASP). YQB's ASP meets its objectives through proactive and efficient security practices that are aligned on risk and threat management.

YQB also engages its partners of the airport community in a collaborative effort that aims to build a comprehensive approach to security.

This allows YQB to adapt efficiently to a changing threat environment while ensuring the continuity of all operations on site. To fulfill its obligations in terms of airport security, Aéroport de Québec inc. aims to:

EMERGENCIES
24/7
418 640-0707

- **Plan** and implement quality control processes, risk management programs and integrated management systems that meet or exceed regulatory requirements.

- **Promote** a strong security culture based on the awareness of the entire airport community.

- **Integrate** all airport community partners in all aspects of Airport Security through efficient information sharing.

- **Maintain** a high standard of quality and regulatory compliance in Airport Security operations.

- **Continuously improve** all security-related processes and procedures.
