

## SUSTAINABLE DEVELOPMENT POLICY

Quebec Airport Inc., which is responsible for the management and operation of Jean Lesage International Airport of Quebec (YQB), is committed to preserving the integrity of the physical and human environment and the sustainability of the company by adopting responsible practices and a transparent attitude with the principles of sustainable development, which include social responsibility, environmental protection and efficient management of the organization's assets.

To achieve this, YQB is committed:

- To follow the principles of corporate social responsibility by adopting a transparent attitude while listening to all its stakeholders;
- To respect environmental compliance and establish responsible processes and practices for the continuous improvement of its environmental performance;
- To reduce pollution, air emissions, waste and discharges that may affect the population and ecosystems;
- To minimize consumption of resources, energy, water and supplies;
- To raise awareness and train its employees on practices of sustainable development and environmental protection;
- To suggest to its service providers, business partners and tenants that they adopt the same environmentally friendly practices and;
- To constantly measure the evolution of its performance in terms of sustainable development and environmental protection in order to initiate action plans that aim to improve its performance and to correct any noncompliance or performance below the objectives established.

The policy aims to achieve the goals set by the company's and its leaders' desire to preserve the physical, human and organizational environment in which its activities are carried out in accordance with the principles of sustainable development, ecosystem protection and continuous improvement of its performance. In addition, YQB subscribes to the Sustainability Reporting Principles of the Global Reporting Initiative (GRI) guidelines.
